SUMMARY

Motivated BCA student with strong communication, problem-solving, and interpersonal skills. Experienced in collaborating on hackathons and team-based projects. Passionate about business development, client interaction, and helping professionals identify suitable career growth opportunities. Quick learner with a goal-oriented mindset and ability to work in fast-paced environments.

EDUCATION

Bachelor of Computer Applications

Institute of Technology and Science (ITS), Ghaziabad

Aug 2024 - July 2027

Senior Secondary Education

Nadharmal Maheshwari AV SCH Jindal Nagar Ghaziabad

Mar 2022 - April 2023

PROJECTS

Career Program Lead Scoring

- Developed a data - driven Lead Scoring System to identify students and working professionals with the highest probability of enrolling in Career Development Programs.
- Designed a candidate segmentation model to recommend suitable management and career development programs based on educational background, interests, and professional experience.
- Built predictive analytics dashboards to track candidate engagement, support follow-up activities, improve lead conversion, and enhance sales performance.

GitHub

SmartCart Customer Segmentation

- Generated customer groups that can help businesses create targeted marketing campaigns and improve sales performance.
- Applied data preprocessing methods including feature scaling and dimensionality reduction (PCA) to improve clustering performance and model efficiency.
- Implemented K-Means clustering and determined optimal clusters using Elbow Method and Silhouette Score, along with data visualization for actionable business insights.

CreditWise Loan System

GitHub

- Built an end-to-end supervised machine learning pipeline to predict loan approval by performing Exploratory Data Analysis (EDA), data preprocessing, and feature engineering.
- Developed and evaluated classification models using performance metrics such as Precision, Recall, and F1-Score to ensure reliable predictions.
- Implemented the solution using Python and data analysis libraries to deliver a data-driven and efficient loan prediction system.

TECHNICAL SKILLS

- Professional Skill :** Communication Skill, Client Relationship Management, Team Collaboration, Lead Generation
- Machine Learning:** Supervised & Unsupervised Learning, Classification & Regression, Model Evaluation
- Data Analysis & Libraries:** Pandas, NumPy, Matplotlib, Scikit-learn
- Concepts:** Data Structures, Object-Oriented Programming, Feature Engineering, Exploratory Data Analysis (EDA)

ACHIEVEMENTS

- Winner – Hacksagon 2026 (ABV-IIITM Gwalior), secured 1st position in a 36-hour national-level hackathon.
- Led a team of developers and designers during multiple nation - level hackathons. Presented project ideas and solution to judges and industry experts.
- Completed GenAI Training for Data Science – Ernst & Young (EY), 36-hour industry-certified program (2026).
- Demonstrated leadership and communication skills by coordinating team activities, presentations, and project demonstrations during hackathons and technical events.
